HFV Token

Official Whitepaper

July 12, 2025

Token Overview

Name: HFV Token
Total Supply: 70,000,000 HFV
Contract Address: 0xeab3b66a24bd99171e0a854b6da215ce3a7ffa98

Token is verified and published on Etherscan.
We are progressing towards a full audit of the HFV Token.
The complete staking contract is also in progress and will be published and verified for public transparency and audi

DApp UI is under development, aiming to be fully compliant and tested before release.
Progress and roadmap updates will be posted regularly.
We plan to scale outreach through social media and attract developers to help structure a full DAO.
There are no promises - only continuous hard work and transparency.

Staking Mechanism

HFV uses a time-based staking structure that rewards long-term commitment with increasing APY tiers. Staking dur
- 21 days
- 3 months
- 6 months
- 12 months

Smart contracts transparently enforce lock durations and calculate rewards based on a fixed multiplier model.

Formula: (HFV x 0.4 x 17.38 x Tier Multiplier)

Example: Staking 120 HFV for 3 months:
$120 \times 0.4 \times 17.38 \times 3 = 2506.56$ HFV

Managed Funds (MF)

All transaction fees are routed to Managed Funds (MF), which redistribute to the PSF. 15% of tokens are locked fror

Protection Security Funds (PSF)

Receives transaction fees and locked tokens.
Ensures investor protection and funds for protocol security mechanisms.

Roadmap & DAO Expansion

- Investment DAOs: Community-based project investment strategies
- Grant DAOs: Allocate funds to promising proposals
- Social DAOs: Organize for awareness and network growth
- Platform DAOs: Transparent protocol governance

Team & Open Source Contributors

- AI Engineers: Integrating ML insights for adaptive staking.
- Web3 Devs: Smart contracts, token engineering, audits.
- DApp Builders: Frontends, staking calculators, analytics & dashboards.
- Social Influencers: Driving adoption through crypto-native education.
- DAO Operators: Coordinating governance and treasury transparency.

Community Call

We're always looking for passionate individuals who resonate with the HFV Protocol vision.
If you believe this is something you'd truly love to be a part of - whether you're a developer, designer, strategist, or e
we welcome you to join us and help build a transparent, secure, and community-driven ecosystem.

Let's grow this together.
